**Some plainer and hard to place lower grade calves fall below these figures. **

Great way to start the month of September. First time KCA has had a sale in 25 + years and I would consider it a success. We appreciate the customers who trusted in us to market your cattle. The market seemed steady on good quality cattle all the way through. Plainer cattle are getting harder to place. Which comes with this time of year. Cattle sickness is starting to really take effect now on the feeder end of things.

Packer cows and bulls steady to active.
